

Removing the "established business relationship" qualification from the fax regulations is absolutely bad for business forcing associations to obtain written consent of our own members. Our members have ongoing business relationships with us, their association, that they PAY DUES to initiate. We include opt out messages in every fax we send already. Do not force our not-for-profit business to sever and endanger relationships with a constituency that clearly wants to receive our messages, offers and promotional messages to benefit their work they perform in their profession.
